

Short Term Upskilling Internship Programme 2025-26 - Department of Computer Science, CUSAT

The Department of Computer Science at Cochin University of Science and Technology (CUSAT) is excited to launch its Short-Term Upskilling Internship Programme, aimed at students eager to delve into advanced areas of computer science. This initiative offers participants the opportunity to work closely with expert faculty and gain hands-on experience through involvement in cutting-edge research and development projects.

The Department of Computer Science came into existence in 1984 with an M.Tech. course in Computer and Information Science, which was the first in the state of Kerala. In 1986, the Department was identified by the Defence Research and Development Organisation for conducting an M.Sc. programme in Computer Software, as a feeder course to the DRDO Laboratories. The department served as a seeding agent for the establishment of Computer Centre, which was inaugurated by the then Prime Minister in 1990,. The department was entrusted with the responsibility of conducting the MCA programme in June 1994, which helped to streamline the course and setting it into the right track. The B.Tech. course started in 1996, was given co-ordinating support by the department in the branch of Computer Science & Engineering. A new M.Tech. programme in Software Engineering sponsored by UGC was also started in the academic year 2000-2001.

Who can apply: Undergraduate and postgraduate students in Computer Science.

Duration: 1 to 3 months(Full time), with flexible start dates depending on the academic calendar.

Program Highlights:

State-of-the-Art Laboratories: Interns will have access to CUSAT's advanced research facilities, including:

Artificial Intelligence & Computer Vision Laboratory (AICV)

Bioinformatics Laboratory (BI)

Cyber Physical Systems Laboratory (CPS)

Natural Language Processing Laboratory (NLP)

Software Engineering Laboratory (SEL)
